

Global Financial Communications with Precision and Expertise

BIG
LANGUAGE SOLUTIONS

What We Do

At BIG Language Solutions, we offer comprehensive translation services tailored specifically for financial communications. Our expertise ensures precise and timely delivery for critical documentation, enabling you to navigate the complexities of financial reporting with confidence.

Supporting Your Financial Reporting Cycle

At every step of the journey, we'll ensure you are sharing accurate communication with translations, for every audience, worldwide.

Financial Documentation

Complete translation services for Annual Reports, Interim Reports, and Half-Year Reports to ensure accuracy and clarity.

Corporate Governance

Support in translating remuneration policies, regulations, codes of ethics, and articles of association for compliance and transparency.

Environmental, Social, and Governance (ESG) Reports

Comprehensive translation of sustainability reports, integrated reports, and ESG policies to showcase your commitment to responsible governance.

Extensive Experience

We already work with listed companies, audit firms, banking institutes, multinational corporations, and leading international law and tax firms.

How We Do It

At **BIG Language Solutions**, we leverage a combination of expert linguists, effective project management, and custom linguistic assets to deliver exceptional translation services. Our commitment to quality ensures that your financial communications are not only accurate but also compliant with industry standards.

✓ Expert Linguistic Team

We have a global network of over 3,000 translators on four continents. These professional mother-tongue translators are experienced in financial and tax translations, including proficiency in IFRS and GAAP standards, ensuring precise terminology.

✓ Dedicated Linguistic Assets

Tailored translation memories (TMs) and glossaries to guarantee consistency and quality across all documents.

✓ Project Management

Proactive support that's tailored to meet your deadlines effectively. Shared calendars for real-time updates and seamless scheduling.

✓ Review & Quality Assurance

Rigorous internal editing processes to ensure accuracy and clarity in every translation.

Waiting Wondering Workarounds

Additional Services

DTP Capabilities

Direct translation in formats such as InDesign to streamline workflows.

Sworn Translations

Certified translations as needed.

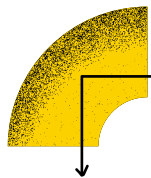

Interpreting Services

Consecutive, simultaneous, and chuchotage interpreting, both on-site and remote.

Benefits of Partnering with BIG Language Solutions

Partnering with **BIG Language Solutions** offers a range of benefits designed to enhance your financial communications, all while ensuring the highest standards of **confidentiality and security**. We recognize the sensitive nature of financial information, which is why our translation processes are safeguarded by strict security protocols, including **SOC 2 Type 2 certification**. Your financial data is protected throughout the translation cycle, with secure file transfers, encrypted communications, and robust data management policies.

Our **dedicated account management team** aligns with your financial calendar, enabling proactive anticipation of translation needs. We ensure **terminological consistency** across all financial documents, enhancing professionalism and clarity.

With our **specialized financial translators**, you can expect **rapid delivery** and reduced review cycles, eliminating the wait for translations. With flexibility to accommodate in-progress changes seamlessly, you never have to wonder about project timelines.

Additionally, our **post-sales assistance** guarantees ongoing support for updates after delivery, ensuring your translation memories remain current for your next report.

Our cost-effective solutions, including dedicated pricing under **Master Service Agreements (MSAs)** and transparent **Service Level Agreements (SLAs)**, help reduce bureaucratic overhead. Finally, we offer budget planning support by creating future budget proposals based on historical data, your financial calendar, and seasonal trends.
